STARK'S INSURANCE RECOVERY PROCESS

An accident occurs.

The vehicle is taken to a body shop after which it is determined if it is a total loss.

If a total loss, the Insurance company will dispatch the vehicle for us to pick-up through our custom software and web system designed specifically for the Insurance industry.

After the sale from the Insurance company to STARK, the vehicle will either be auctioned off in one of STARK's weekly auctions, sold by retail on any given day, parted out, or scrapped out.

Once the vehicle is settled with the insured, STARK will buy the vehicle from the Insurance company after fronted payouts are subtracted from vehicle price, at which point the Insurance company

We will pick-up the vehicle from the body shop and front any towing and storage cost after attempting to lower such costs.
